BEST. EVER.

The X-UV Printer cannot be beat.

Large flatbed printers designed for signage and graphics print at high speeds, but are limited by substrate thickness.
Small format printers designed for specialty items print at slower speeds and are limited by substrate length and width.

*The Xanté family of X-UV Printers do **BOTH**.*
It's the best of both worlds.

Signage • Manufacturing • Specialty Items • Industrial

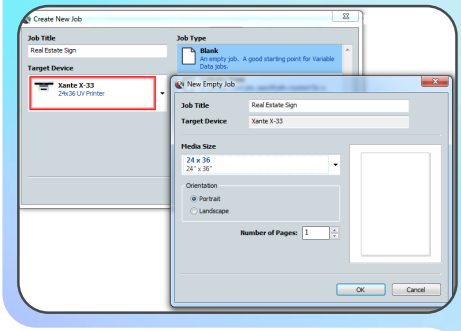
Adobe® PostScript® 3™/PDF Workflow

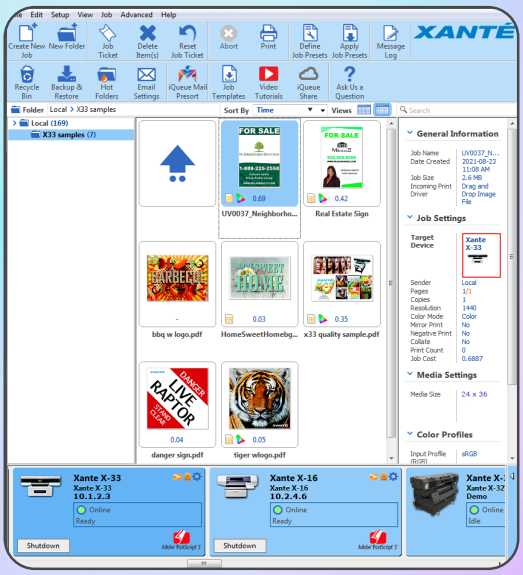
Simply Brilliant Color Workflow

Welcome to iQueue Prepress Software

Xante builds on its innovative workflow software with powerful team-based productivity in iQueue 14. True server-client operation enhances your workflow to optimize the talents and time of everyone involved in production. Take advantage of your entire team of IT specialists, designers, and printer operators to simplify prepress tasks such as job sharing and job cost estimating, file editing tools, patented Right-ON® Spot Color Matching and much more. Create attention-grabbing displays with VividHD-UV ink. And, with instant curing, your customers will appreciate the fast, durable results.

Create a new job or simply drag and drop your file into the queue.

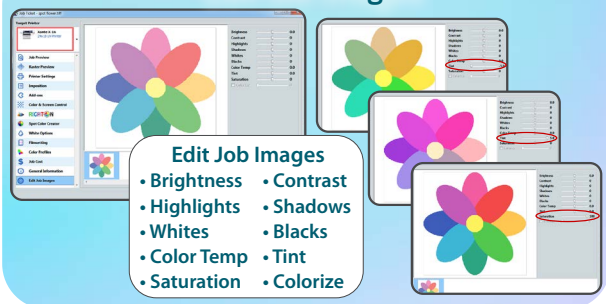




iQueue features include:

- Fully Independent CMYK Controls
- PANTONE® Color Library
- Right-ON® Spot Color Matching
- Full Imposition and Tiling
- QR Code Generator
- PDF-Out AND SO MUCH MORE!

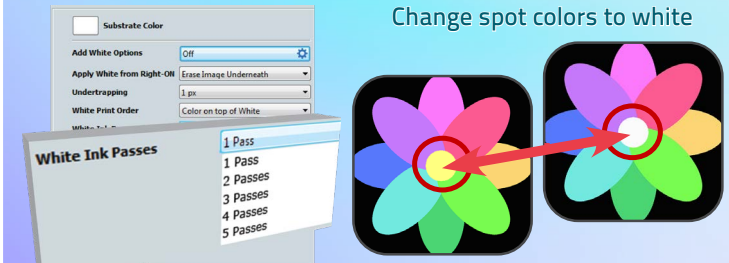
Edit Job Images

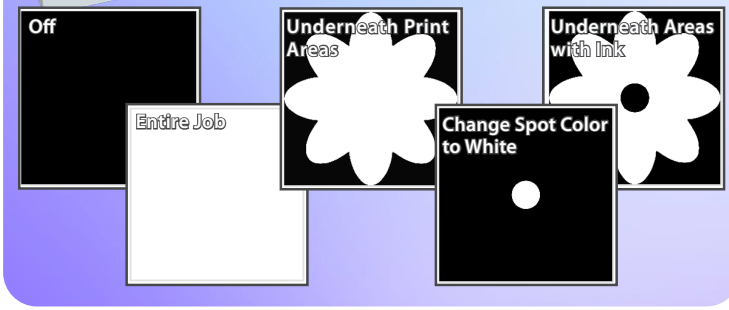


White Options

Build depth with layers of white

Change spot colors to white





Imposition allows you to optimize your page layout by placing images in the maximum number of columns and rows while also supporting margins and gutters.
